

THE OUTCROP.

Devoted to the Mining and Development of the Windermere and Golden Divisions of the District of North East Kootenay.

Vol. I, No. 2.

Canterbury, B. C., Thursday, June 14, 1900.

50.00 Per Year.

W. C. WELLS ELECTED BY 57 MAJORITY.

Total Votes: Wells, 244; Armstrong, 111 and Burnett, 76.

PREMIER MARTIN LOSES CONTROL

Though Re-Elected Himself Will Probably Have but Seven Supporters.

Saturday last was without doubt the most exciting election ever experienced throughout the whole of British Columbia. There was a general feeling of interest in the election than ever before in the history of the Province and the reason of this is the unsettled state in which the whole Province has been kept for the past two years by experimental politicians. Men who hitherto had given the lie to the saying that a passing thought has been awakened in the fact that we need the best man that can be obtained to manage our Provincial affairs.

In the riding of North East Kootenay the political battle was waged as usual as in every other riding. The voters were congratulated by the Hon. Mr. Wells for his great victory. True he worked hard, but his reward has been the greater. In a three cornered fight every man is to do his very best and we must concede that our three candidates Messrs. Wells, Armstrong and Burnett left no stone unturned.

A majority of 57 is a good one in any riding, but it is a good one and none can deny it is a remarkable one and none can deny it is a victory which Mr. Wells is to be proud of. North East Kootenay. And we do not say that Mr. Wells will work hard to earn his appreciation of the honor which was conferred upon him on Saturday last.

Below we give the result of the poll in this riding as taken by the returning officers.

Wells Armstrong Burnett			
Golden	69	33	37
Field	10	2	0
Deer	10	8	0
Beaver	10	8	7
Palisade	10	3	3
Rogers Pass	6	2	0

Wells majority over Armstrong, 133 over Burnett, 168; over both, 57.

Premier Martin Defeated.

Vancouver, B. C., June 9.—The Martin government has been overwhelmingly defeated as a result of today's election of members of the Provincial Parliament. The Legislature is composed of thirty-eight members, and at midnight returns will have received from thirty-five constituencies twenty-eight members. The Premier Martin does not acknowledge an absolute defeat, but claims his ability to induce half a dozen non-attached members among those who are elected. He says that the election of the Premier Martin does not indicate a confidence in the house. The straight Conservatives will have the strongest in the division in the next parliament. He has elected thirty members.

Martin, the Premier, elected in Vancouver, as is also South Carter, minister of mines, in Rossland district, and J. C. Brown, of Westminster, minister of finance. Two of the ministers, Yates of Victoria, and Howe of Yale, are defeated. Chas. Wilson, leader of Conservatives, and F. L. Carter, leader of Provincial party, were both defeated in Vancouver city, where Mayor Charles led the poll in the Conservative interest. It is predicted that when the returns are in a week or so it will be found that the Premier has but seven supporters and a vast amount of confidence.

Years ago a rich New Yorker put \$50,000 into a mine enterprise to make a position for a dissipated son whom he sent out west to reform. The first thing the young man did was to buy a barrel of old Kentucky whiskey, the next was to build a diversion works in a run where the cross average 60 feet out lead and 20 ounces of silver. The smoke stack is all that is left of the \$50,000. Fortunately the boy did reform.

In a word if you want to build a frame house you employ a carpenter; if it is a brick house you get a mason; if you have a hot gas and a lawyer an attorney; if you are sick you send for a doctor. But many eastern investors think that anything that wears pants is good enough to run a mine or hold office out west.

NEWS OF THE MINES

What is being Done in the Tunnel, Dump and Shaft—Local News.

J. A. Bangs left for Calgary on Saturday's boat work on the Silver Tye.

Wm. Hunt started work on the Silver Tye.

The trail up Toby creek is in good condition with plenty of fuel.

E. Banks informs us that he will start work on the Alpha, Boulder creek.

Jim Desmond is doing assessment work on Wm. Hunter's and Steve Wilson's claims.

B. Lyons has gone up McDonald creek to do some work on the Amazon and Cashew claims.

Messrs. Brown, McLean and Connor leave today for Number Two creek on a prospecting trip.

J. Thompson is up the North Fork of Toby creek doing assessment work on the Star and Daisy.

Joseph Lussard has left for the North Fork of Number Two creek to do assessment work on his claims in the base basin.

J. Fraser and B. Washburn will go to the Marlon group this week, or which they will not consider a week.

R. A. Power left on Sunday on a trip up Toby creek, where he is interested in several claims adjoining the Mineral King and Wm. Taylor's claims, a couple of claims on the north side. It is very doubtful from what B. Abel says that he has his claims made in the Mineral King. We wish him every success.

The Paradise Group.

Messrs. Brice and Hammond have taken a contract to Messrs. Jeffrey and Jones to do the work on the Paradise group and other claims up Copper creek, at the mouth of Dated creek.

R. G. Green of Kaslo, intends coming into this district shortly to look after the interests of French and English capitalists, by whom he is employed. He spent a short time here last summer.

Four miners are reported to be working some claims up Toby creek far from the dump. They will continue work throughout the summer.

Henry Hess reports that the lead has been struck on the Silver Tye and that work is now confined to drifting on the lead. The claim is showing up remarkably well.

The Premier's committee, through considerable amount of work on the tunnel and dump and shaft, and two other claims, purchased from Hess and Miller last year.

Messrs. Hess and Miller are following the lead with good success on the Mountain, situated just above the Silver Tye on Toby creek. They report a good show of copper and gold ore.

A prominent Spokane mining man will do the assessment work on the Silver Tye and other claims in the North Fork of Toby creek. Assays from this property have run as high as \$15 in all values, and it is expected that the present work will considerably enhance the value of the property.

W. Taylor and J. Hendrickson are doing their assessment work on the Silver Tye and other claims in the North Fork of Toby creek. Assays from this property have run as high as \$15 in all values, and it is expected that the present work will considerably enhance the value of the property.

HOTEL ARRIVALS.

Windermere Hotel—C. H. Parsons, A. Hamilton, D. Anderson, C. Anderson and J. Hancock, Golden; J. A. Buntman, Tumbler Hill; H. E. Collett, Fort Steele; W. F. E. Collett, Fort Steele.

Messrs. Taylor and Rice, who have the contract for building the hotel at Canterbury, started work on Monday and expect to have the building finished by the 15th of July. The hotel will be the largest and most complete in the Windermere district.

Chas. Carter, proprietor of the Lakeview Hotel, Alton, was present on Monday night with a red fire mountain goat. He is a member of the intimate troupe. He has exhibited his goat's "outcrop" and has already put him in training for the purpose of installing all pilgrims to the Columbia valley.

Composers call at the Operator office each and every time you are in town, and tell us all about your claims. Don't forget to bring a specimen of your ore for our sample ones.

Local News.

Mrs. Hume left on Saturday's boat for a visit to London.

Mrs. W. B. Emmerich left Tuesday night for London.

High Macdonald, barrister and editor of the firm of Macdonald, Cameron and Macdonald, has opened an office at Victoria.

T. H. Taylor, P.L.S., is surveying lots for the Columbia Lumber Co.

Mrs. Campbell, of Peterboro, left on Friday's boat for Sidney, B. C.

Mrs. Pitts' house is nearing completion, and will soon be ready for occupancy.

J. A. Bangs brought up a load of bones in a decisive way, which was found to be the bones of a bear.

Mrs. Collett returned Saturday from a prolonged visit to her home in West Kootenay.

Mrs. Kingston, Mrs. Pitts and Mrs. Power paid a short visit to our street on Tuesday.

Mrs. A. Klippen left for Trail, B. C., on Sunday's boat with a car of ore from the old mine.

Mrs. and Mrs. Washburn and lady of Columbia, went to their country place of Mrs. Klippen.

Mrs. Cannon and Miss Lambert drove over to Golden and visited Mrs. Klippen's at Westford, Idaho.

Rev. Evans and wife returned from Ontario on the boat, and are residing in Mrs. Freeman's cottage on the hill.

R. S. Gallop has just an assay with a very good result, and is now prepared to assay for the general public.

Mrs. and Mrs. Bulman of Tumbler Hill were the guests of Mrs. W. Taylor on last Saturday. They left on Sunday's boat for London.

Mrs. R. A. Kingston, Miss Gifford, E. J. Jones and Miss Victoria Kingston were the guests of Mrs. and Mrs. J. S. Taylor on Saturday and Sunday last.

R. B. Ross left at 11 o'clock on a boat for London on the boat, and is now prepared to assay for the general public.

Mrs. Gifford and Mrs. Dunn accompanied by Messrs. Scott and McLean and a very interesting visit to Vancouver, British Columbia, and returned on the boat of the day.

Master Vaughan Kingston created quite a sensation Saturday with his party at Alton, by performing a swim inland. He swam on the lake, cheering Vaughan for his bravery.

The travelling public will find it to their advantage to read the Altoner Home at 11 o'clock. The general program, Mr. Frank Davis is at all times prepared to make every arrangement as possible for his guests. He holds in complete with the boat in the AM, while his boat is in the water, and is supplied with all the best brands of liquor and cigars.

OUR AGRICULTURAL RESOURCES.

In the Windermere Mining Division we have, without exception, the most promising of all the divisions of Kootenay. Not only have we hundreds of promising mineral claims, but we have a very large area of agricultural land that cannot be surpassed in productivity by any other portion of British Columbia. The Columbia valley has long been known as a fertile one and the only reasons ascribed for its not being thickly populated long ago is the great want of transportation facilities. In the past few years this has been remedied to some extent by the navigation of the Columbia river. Already we see the farmer who has cultivated the soil and are now content with a fair share of this world's goods laid aside. Further, it will not be long before there will be such a demand for farm produce, with which to supply the mines, that they cannot avoid becoming wealthy in a few years time.

No better evidence of the wonderful growth of this valley is needed than the hundreds of wild horses that roam over the country enjoying such full freedom and plenty that it is well nigh impossible to catch them.

We need more farmers in the valley and it will not be long before they come.

The soil is a very rich sandy loam in which every cereal grows with marked rapidity and soundness. Some wheat of a very good quality is grown, while oats have proven a soundish crop. Sufficient hay grows for all requirements.

Irrigation is needed in some localities, but this is easily accomplished by reason of the gentle slope of the lands from the foothills of the mountains to the water's edge, and the many mountain streams that wind their way through beautiful woodlands, over the open, grass-like meadows to the lakes or river.

The agricultural land is practically free of underbrush, but is here and there adorned with magnificent timber—plenty for fuel and building purposes.

Now that a newspaper has been started there is many more things wanted. The first we will ask for is a policeman. Not that the editor of this paper needs protection as yet, but then we may not it is well to be prepared. So we would ask the Provincial Government to send us a real live Irish policeman. As Irish policemen will always make life more comfortable. Send us a "rog" at once Mr. Wells.

MINING IMPROVING.

Each More Activity Displayed in Stocks.

There is a decided improvement in the late stock market, and even the most pessimistic of brokers admit that they see a lift in the clouds that have lowered over the market ever since Kruger's ultimatum in October last. Now that the war is over there will be an increase of the betterment and a great revival of interest and an increase in the number of sales.

In this respect the Canadian Mines was the first to begin with the war and should not with it, but it is believed that there is the possibility that it may take a little time for the stock market to reach the same condition that prevailed in ante-bellum times. Brokers say that the stock market is like a pendulum, and that a long period of low prices and limited transactions is certain to be followed by a lengthy time of good prices and extensive sales. There were other factors, it is true, like the actual closing down of the mines and the labor trouble that aided the depression, but these have been removed. It is true, too, that the market would be buoyed and steadied by the resumption on the part of the War, Eagle and the Centre Star of the payment of dividends. These names are putting themselves in shape to do this, and it should not be many months before they should do so.

A Prospector's Poem.

The following verses were picked up at a camp fire on the Windermere trail. One fine day in the middle of the night Two dead men went out to fight. Two blind men to see fair play And two dead and dumb men to shout hooray. A dishevelled man, two criminals and some more Went out also to keep the score. While the parson and the sexton and the undertaker jay Were right on hand for the close of the day. Who says prospectors are not poets?

A Canadian was stopping in Rome, and one day he overheard some Europeans boasting of the beauty of the scenery in Europe. It grew so interesting at last that he turned around and very politely joined in the conversation, incidentally introducing some remarks about the grandeur of the Rocky Mountains, their heights, etc., and the beauty of Upper Columbia valleys.
